Special Medical Report.

The sick bay hut in RABENHORST Camp is in such a bad state that one cannot speak of a sick bay hut any more. The rain leaks through everywhere. The housing of the sick is therefore impossible. The labour supply is thereby greatly endangered, because those persons who are ill cannot get well again. The hut must be roofed over as quickly as possible, or the sick must all be transferred to hospitals. This must be avoided owing to overburdening which will result.

Oberlagerführung, den 28. Juli 1944

Ärztlicher S o n d e r b e r i c h t !

Die Revierbaracke im Gemeinschaftslager Rabenhorst ist in einem derartig schlechten Zustand, dass von einer Revierbaracke überhaupt nicht mehr gesprochen werden kann. Es regnet an allen Ecken und Enden durch. Die Unterbringung von Kranken ist dadurch unmöglich. Der Arbeitseinsatz wird dadurch schwerstens gefährdet, da eine Gesundung der Erkrankten nicht zu erreichen ist. Die Baracke muss möglichst schnell abgedeckt oder die Kranken müssen sämtlich Krankenhäusern überwiesen werden, was wegen der dadurch entstehenden Überlastung vermieden werden muss.
